

1 in Power Line Design and Safety Training!

March 1, 2011

PDA Training—Now “Utility Training Services, Inc.”

Please make note that Power Delivery Associates’ Technical Training Division is now “Utility Training Services, Inc.”

Utility Training Services (UTS) has retained the staff and instructors who have managed and delivered excellent training at PDA for the past two years and UTS will continue to offer the programs and courses many have participated in through PDA since the training program was launched in 2004.

UTS recognizes the premier quality of PDA’s core line design courses and will be implementing only minor changes in core course content. Modifications to the overall program, however, include a Level 4 (Advanced Line Design) as well as broader selection of specialty courses and seminars and an opportunity to re-certify every two years. A new “Emergency Operations” Certification program will be offered, as well. CEUs will be issued for many of these courses.

As PDA Training Services, we have appreciated your business. As UTS, we trust that we will continue to meet and exceed your expectations. We are very excited about this new endeavor and we look forward to continuing to work with you and serve your personnel and your members.

Visit our website at UTSHOME.com for more information or call us at (404) 890-5514 to learn more about our company, our certification programs, our classes, and our staff.

Thank you!

Tammy Willingham
President/CEO
Utility Training Services, Inc.
